Termite Management Systems

Ura-Fen Shield TWB Termite Barrier

The Ultimate Physical Termite Barrier

Installing Ura-Fen Shield into Cavity

The revolution continues

URA-FEN SHIELD TERMITES AND WATER-PROOF BARRIER

Ura-Fen Shield is a long lasting, cost competitive tri-layer sheet physical barrier, formed using our cutting edge Ura-Fen technology for protection of Joints, cavity perimeter, or, as a full under-slab termite/damp-course barrier.

Ura-Fen shield may be side-loaded to the slab or tucked under the frame or inner masonry.

Ura-Fen contains bifenthrin that is permanently locked into the barrier and is the active constituent that, repels, kills and deters any attempt by termites to penetrate the barrier.

NO COSTLY RETREATMENTS

Ura-Fen shield when installed as part of a cavity perimeter system, or as full under-slab termite and vapour barrier requires no costly re-treatments.

Ura-Fen Shield Full Under-slab Termite and vapour barrier

Ura-Fen Shield Top Loaded Perimeter

Ura-Fen Shield Side Load Cavity Perimeter

Ura-Fen is the perfect termite protection for monolithic, infill or footing slabs, Waffle Pod, bearer and joist treatment, tilt panels, blockouts.
