

TERM-seal™
PRIME COAT
Surface Primer

High-quality acrylic based primer for concrete and masonry surfaces

TERM-seal™ Prime Coat is a high-quality acrylic based primer for use on concrete and masonry surfaces and specifically designed for use with TERM-seal™ Multi-Purpose Active and TERM-seal™ Sealant Active for both internal and external applications.

TERM-seal™ Prime Coat must be applied prior to the first coat of TERM-seal™ Multi-Purpose Active or TERM-seal™ Sealant Active in all applications as it provides the necessary texture to ensure correct adhesion to the surface treated.
